

Cable Tray Development Model

Overview

Download this free 3D print file designed by AG3D. A fully modular snap together cable track system. System includes internal pathways for wire routing with snap fit lids for ease of service and installation. Why use cable tray?

A properly designed and installed cable tray system provides outstanding reliability for a facility's control, communication, data, instrumentation and power systems cabling and wiring. There are T, Y, 90° and 45° junctions, as well as. Discover all CAD files of the "Cable trays" category from Supplier-Certified Catalogs □ SOLIDWORKS, Inventor, Creo, CATIA, Solid Edge, autoCAD, Revit and many more CAD software but also as STEP, STL, IGES, STL, DWG, DXF and more neutral CAD formats. Select a containment product and define alignment, elevation, offset, and bend and branch types and you are ready to start modelling.
