

Fiber Optic Cable Laying Contracting Qualification

Overview

The Certified Network Cable Installer (CNCI ®) has become the industry preferred certification for fiber optic cable installation and is specified as a requirement on many job profiles and installation project contracts. for installing electrical products and systems. Existence of a standard shall not preclude any member or nonmember of NECA or FOA from specifying or using. CFOT® - Certified Fiber Optic Technician - is the primary FOA certification for all fiber optic technicians. Broadband Fiber Installers are expected to know the primary comprehension of Passive Optical Networks (PON) and of Optical Time Domain Reflectometer. The Corning Fiber Broadband Technician (CFBT) training is a five-day course that includes intensive hands-on training on optical fiber and networking, network design, hands-on splicing, connectorization, field construction for cable deployment, testing, and system turn-up.
