

How to rotate the optical cable reel

Overview

To use, simply place the CRT in front of one of the reel flanges and use a PowerRoll machine to push the reel onto the CRT. The FCR-1000 series cable reels are designed to fit Princetel's standard FORJs and slip rings. The rotary joints are protected inside the drum for durability and seamless deployment of single or multi-channel fiber optic and/or electrical cable with uninterrupted optical and/or electrical signal. bed in the manual is subject to ch ETY ALERT SYMBOL is used to call your attention to items or operati es a hazardous situation which, if not avoided, could result in minor or in ury, damage or destr ct on of the equipment and he es a special instruction in op rati nt truc tion des nd Nam e in st. The CRT can rotate any flanged cable reel on a smooth, flat floor. This reduces the. tic sig-nals. Higher voltages available upon request. All slip ring bodies may be equipped with stand heaters (standard for.
