

Huawei SAN Fiber Optic Switch

Overview

The Huawei SNS2224 is a high-performance fiber optic switch designed for enterprise-level storage area networks (SAN). Huawei's comprehensive portfolio of products and solutions enables you to realize smooth digital transformation and rapid growth of virtualization, Big Data, and cloud services. Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education. Category: Huawei, Huawei Switch, CE6800 Series, 24 ISPs have ordered this in the past 4 weeks. In a world where every millisecond counts, this hardware is the unsung architect behind everything from lag-free 4K streaming to real-time stock trades. With 24 ports supporting 16GB Fibre Channel (FC) connectivity, this switch. The unique iLossless algorithm offers 85% improvement in Input/Output Operations Per Second (IOPS) performance. E2E latency reaches as low as 0. Unique Intelligent Lossless NOF (iNOF) features, plug-and-play, and second-level switchover.
