

Manufacturing Process of White Fiber Optic Terminal Box

Overview

We show the manufacturing process of DIMI's Fiber Optic Terminal Box / FTTH Termination Box—from raw materials and injection molding to assembly, quality inspection, and packaging. If you're looking for a stable supplier for OEM/ODM and bulk orders, this video helps you understand our production. Minqing FibrAmerica Technology, under its trade name FIBRAMÉRICA, is one of the world's leading companies dedicated to the design, development, manufacture, distribution and marketing of advanced optical connectivity solutions. It mainly used for indoor fiber optic cable straight through. Strictly selected quality fiber optic termination box in China for your FTTH & OSP networks, your procurement will be easy & cost-effective. You can ask us to. From mission-critical surveillance systems and telecommunications to enterprise data centers and Fiber-to-the-Home (FTTH) applications, optical fiber offers unparalleled speed and low signal attenuation over long distances. However, the very characteristics that make fiber optic cables.
