

# Where does fiber optic communication revenue come from

## Overview

Revenue Streams: Income comes from residential subscriptions (\$50-\$150/month), enterprise services (\$200-\$2,000+/month), wholesale capacity leasing, and government subsidies. ROI Benchmarks: Fiber projects target IRRs of 10-15%, with payback periods often exceeding 10. The global fiber optics market size was estimated at USD 10.76 billion in 2025 and is projected to reach USD 17. The rapid advancement of high-speed communication networks is driving widespread fiber deployment, rising data traffic. Once deployed, operators can leverage their existing fiber network to offer new premium residential, business, or any haul services that unlock additional revenue streams. Rapid expansion of data centers, cloud services, and 5G infrastructure is driving strong adoption of fiber optic solutions. Rising internet penetration and. Global fiber expansion and faster networks are rapidly powering data traffic, with undersea links carrying 95% worldwide. Global fiber optic internet subscriptions topped 2. This article breaks down the unit.
