

Which tax category applies to fiber optic cable splicing

Overview

State Sales and Use Taxes or Communications Taxes: Most states apply either the general sales tax or a special communications-specific tax to telecom services. Communications services provided that produce a signal receiving equipment (person or real property or leased) not directly used to provide land improvement buildings and improvements consisting of. Fibre optic cables fall under specific classification categories for depreciation purposes. This classification influences the method and timeframe of depreciation. This classification is crucial as it. This revenue procedure provides a safe harbor method under which the Internal Revenue Service will treat a fiber optic node and trunk line consisting of fiber optic cable used in a cable television distribution system providing one-way and two-way communication services as the unit of property for. This revenue procedure also permits a taxpayer to treat a fiber optic transfer node and trunk line consisting of fiber optic cable used in a cable distribution system as the asset for depreciation purposes.
